Dear Parents,

Greetings from Don Bosco School, Kalyani.

On behalf of all the Salesians, Teachers and Non-Teaching staff, I would like to thank you for your wholehearted co-operation in carrying out different activities of this scholastic year. We are living in a world that is going through lots of changes of monumental proportions. In this scenario of change, parents and educators are looking for an educational system that will equip their kids to be able to distinguish between right and wrong. To reduce the aim of education to mere literary statistics or as mere process to earn economic prosperity would be to degrade education and through it the society itself. I believe, the fulfilment of education can be measured only when we see the educated live honourably with the dignity of a human being and at the same time enable the educated to shape the lives of others.

Value education is not a set of syllabus or programme. By value education I mean everything that is done in the school, and this includes knowledge, thought process, attitudes, skills, character etc. The vision of Don Bosco School, Kalyani is to be an institution that imparts knowledge, virtue, and service to shape and live a life of honour and dignity. To impart such value education in the school we have not only given importance to syllabus but also organized many co-curricular activities in this scholastic year even though classes were online. Let me take this opportunity to thank all our teachers and supportive staff for their untiring efforts to make our students self-reliant and competent to enrich the life of our students. Thank you, dear parents, for your unfailing support and co-operation in all that we have tried to execute for your children. I hope and pray that for the coming scholastic year our students may be able to return to the school campus.
